Abstract #: Judging category:					Judges: Circle one number for each aspect of the poster presentation														
Student Name: Poster Title:					1 = Needs Work 3 = Very Good 5 = Outstanding														
										1. Abstract and Title:					1	2	3	4	5
										Example criteria:			Judge's com	ments:					
Clear and concise summar																			
Proper grammar, spelling,	structure																		
Scientific writing style						-	-		1										
2. Visual Aspects of Pos	ster Design:				1	2	3	4	5										
Example criteria:			Judge's com	ments:															
Good balance of backgrou																			
Clear and understandable		-																	
Well-organized text and vi																			
Design contributes to und	-																		
Accurate spelling, gramma	ar, and scient	ific terminology	Ý		1		1	1	1										
3. Oral presentation by	student:				1	2	3	4	5										
Example criteria:			Judge's com	ments:															
Uses appropriate scientific	c and technica	al terms																	
Articulates objectives of p	-																		
Explains experimental rati	onale, data c	ollection and a	nalysis																
Responds to questions wit	th references	to relevant sci	entific concepts																
Optional: Group members	participated	equally in pres	entation						-										
4. Poster and oral prese	entation – st	tudent's back	ground knowled	ge:	1	2	3	4	5										
Example criteria:			Judge's com	ments:															
Explains relevant scientific	concepts																		
Analyzes previous work																			
	ocedures: pro	per use of equ	ipment; safety																
Explains measurement pro	-																		
Explains measurement pro Compares this work to oth	-					1		-	1
